

GHOST S1 MK III

GRILL

- Countersunk screw holes
- Added 4 corner screw hole points
- Included 8 screws to fix the grill

BLADE

- New higher quality powder coat
- Increased motherboard standoffs diameter to 6 mm
- Increased motherboard cutout height to support any M.2 positioning
- Adjusted cutout to better fit the PCIe power cables
- Increased bottom fan cutout height for a better 92mm AIO fit
- Moved bottom AIO zip ties holes position to match previous update
- Lowered riser cable standoffs position to support lower GPU positioning and 2.5mm taller GPUs

FRONT GABLE

- New ultra smooth surface treatment
- Decreased countersunk depth (0,5mm) for screws not to protrude to motherboard chamber

PWR BUTTON

- Longer cables with connection markings
- Updated PCB and silicon fitting design for even mounting pressure

RISER CABLE

- The all new COBALT TWINAX PCI-e RC260 GEN 4+ included

RAG TAG

- New RagTag from high quality vegan leather with logo and Swedish flag engraving

GPU COVER PLATE

- New higher quality powder coat
- Taller cover area
- Shorter sliding pins

REAR GABLE

- New ultra smooth surface treatment
- Decreased countersunk depth (0,5mm) for screws not to protrude to motherboard chamber
- Lowered GPU IO opening to support lower GPU positioning and 2.5mm taller GPUs
- Updated rear S/N sticker
- Updated Kensington lock

SIDE SHEET

- New ultra smooth surface treatment

PSU BRACKET

- New higher quality powder coat
- Increased top opening size for better PSU compatibility

TOP/BOTTOM PLATE

- Increased fan mounting rails size
